# Reflections

What did you find most useful in the seminar?

- The most useful information was about the different internships available for students
- [I found most useful] were the presentations with the students who had actually experienced the internship at Brookhaven National Labs.
- I found what it takes to be successful useful in this seminar.
- The contact information and web site links were very helpful to have.
- It was helpful to know the different companies that have internships available, also information about the resume workshop.
- How motivating all the professors were.
- The many useful sites, ideas; it gives me more choices and teaches me what I have to do during college life.
- The information about opportunities to get into a real-world job.
