

Make writing your career.

City Tech's Associate in Arts with a specialization in Professional Writing (LAA-PW) gives you a two-year foundation in writing for real workplaces.

WHAT YOU'LL LEARN TO DO

- Find, evaluate, and manage information with an eye on technical, legal, ethical, and cultural issues
- Design and produce writing for real audiences, across media, with professional techniques
- Collaborate in technical communication settings, including using AI critically and effectively
- Create inclusive communications that reach, respect, and engage diverse audiences

Where it leads: communications, content creation, documentation, user experience.

WHY CHOOSE LAA-PW

- **Halfway to a Bachelor's.** Every PW course counts toward the BS in Professional and Technical Writing. Finish LAA-PW and you need just 60 more credits.
- **Ready to transfer.** LAA-PW is transferrable to bachelor's degrees at other CUNY campuses.
- **On your record.** Your specialization shows in Degree Works and on your official transcript.
- **An advisor who stays.** A program faculty advisor who continues with you into the BS.
- **Room to change your mind.** Courses count towards General Education for financial aid.

YOUR FOUR-SEMESTER PATH*

SEMESTER 1

COM 1330
